Bring satellite communications to your smartphone

The perfect blend of mobility and simplicity, Thuraya SatSleeve is the smartest, fastest and simplest way to transform your phone into a satellite smartphone. Thuraya has developed two SatSleeve models; the SatSleeve for the iPhone and the SatSleeve for Android.

The Thuraya SatSleeve packs a whole lot of innovation into a sleek and elegant form factor. It supports the diverse communications needs of smartphone users - from corporate and NGO users to frequent travelers and adventurous explorers.

Stay connected with your loved ones through phone calls, emails and text messages. You can also access your favorite applications such as Facebook, LinkedIn, Twitter, WhatsApp, and many more via satellite. Thuraya SatSleeve revolutionizes the way you communicate. Simply dock your smartphone into the SatSleeve to put the entire world within reach.

Broaden the horizons of your smartphone with Thuraya SatSleeve, which enables you to stay connected with the device you are most familiar with.

Features

Calls and text messages in satellite mode

Expand the horizons of your smartphone and use it in satellite mode whenever there is no terrestrial network available.

Email on the go

Send and receive emails in satellite mode, no matter where you are.

Take your favorite Apps with you

Access your favorite apps such as Facebook, WhatsApp, Twitter and many more via satellite mode, so you can surf, chat and update your status in places that are beyond terrestrial network reach.

Compatibility with the iPhone and Samsung Galaxy

Add a reliable satellite connection to your iPhone and your Samsung Galaxy, wherever you go. The SatSleeve App is available as a free download from both the Apple App Store and Google Play.

User-friendliness

Simply dock your smartphone into the SatSleeve to enjoy satellite connectivity. Available in 12 languages,

the user-friendly SatSleeve App allows you to easily integrate your smartphone's address book with a swipe of your fingertips.

Enhanced safety features

Thuraya SatSleeve comes equipped with an SOS call button - you can make a phone call to one predefined number even without your smartphone docked.

Supported by the most robust and powerful satellite network

Thuraya's satellite network is renowned for having the most reliable satellite coverage that covers approximately 160 countries or two-thirds of the globe. With the high penetration alerting capability (HPA), Thuraya SatSleeve enables you to receive a call notification even with the satellite antenna stowed, keeping you connected at all times.

Adaptors for the iPhone and Samsung Galaxy

Thuraya has developed a set of adaptors for the different iPhone and Android models. For a list of available adaptors please visit www.thuraya.com.

How it works

1. Download the SatSleeve App from the Apple App Store (iPhone model) or from Google Play (Android model)
2. Dock your smartphone into the SatSleeve
3. Enjoy calls, messages, emails and access your favorite Apps in satellite mode.

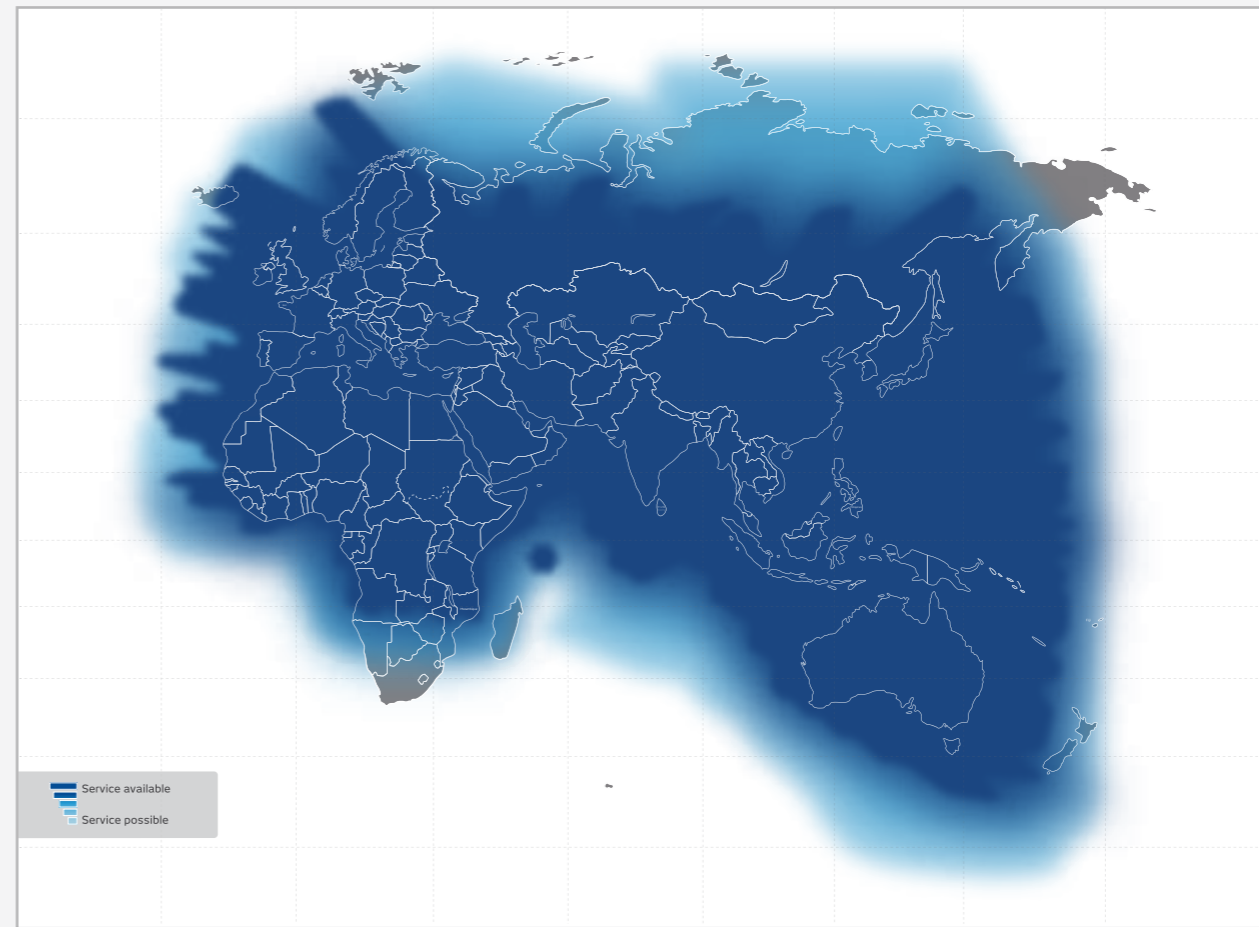

Thuraya's Coverage Area

The Thuraya SatSleeve enables you to stay connected and communicate via satellite mode using your smartphone - from anywhere under the coverage area of Thuraya's satellite network, which extends across approximately 160 countries in Asia, Africa, Australia, Europe and the Middle East.

Thuraya's congestion-free network automatically re-allocates network resource to any single spot beam, allowing Thuraya SatSleeve users to enjoy uninterrupted connectivity beyond the reach of terrestrial communications and cellular networks.

Wherever your mission or business operations take you, the Thuraya SatSleeve provides the advantage of reliable satellite communications even in the most challenging environments and remote locations.

With the Thuraya SatSleeve, your smartphone is ready to meet the world.

This map represents Thuraya expectations of coverage. For further information, please contact Thuraya Customer Care at customer.care@thuraya.com or visit www.thuraya.com
